

Fever Dream

Lyrics by Lewis Moore

Composed by

Ewan Ramsey & Ryan Clements & Mackenzie Bacon & Lyncon Watson & Lewis Moore

Performed by Nowhere Fast

Oh it hurts to see,
they follow blindly,
Into the darkness,
Should've learned from the past yeah,
And life is moving strange
In oh so many ways
It's so uncertain
Just peel back the curtain

and tell me what's been going on
I can't make any sense of what is right and
WRONG!

The world I'm in is out of luck
no more cheap thrills
we're all just stuck
In a fever dream
And when I feel I'm out of my mind
no rhyme or reason can change this time
It's a fever dream

and now I want to flee
So much calamity
where am I going
There's no way of knowing
And here I am today
stuck with this disdain
It makes me nervous
Life's a disservice

and tell me what's been going on
I can't make any sense of what is right and
WRONG!

The world I'm in is out of luck
no more cheap thrills
we're all just stuck
In a fever dream
And when I feel I'm out of my mind
no rhyme or reason can change this time
It's a fever dream

Now the world will see
Rockets on telly
It all starts burning
The lines are blurring
And here I am today
stuck with your big face
It makes me nervous
Life's a disservice
The world I'm in is out of luck
no more cheap tricks
we're all just stuck
In a fever dream
And when I feel I'm out of my mind
no rhyme or reason can change this time
It's a fever dream
